SEASON'S GREETINGS

After a very active and eventful semester your executive would like to congratulate the members, chairmen, and everyone connected with the Society for their wonderful cooperation, spirit and achievements. We are very confident that each and every project will receive the same support the next semester.

During this time of the year it is customary to remember our close friends with something special, consequently we are providing you with this booklet, "CANADA TODAY".

Sincere wishes for a Merry Christmas, a very Happy New Year, and success in your exams.

Your Executive

" S A M "

Are you interested in learning more about the art of management? Then this article is for you. The Society for Advancement of Management, a professional association of international repute, is setting up an undergraduate branch here at Loyola - the first such branch in Canada. It is open to students from all faculties.

The objectives of the Society are: to bring closer together executives in business and students preparing to go into business. To serve as an effective medium for the exchange and distribution of information on the problems, policies and methods of industry and management. To provide students with the opportunity to participate in the organizing, planning, directing, and controlling of the activities of an organization dedicated solely to the promotion and advancement of the art of science and management.

Through such activities as seminars, clinics, conferences, lectures, research projects, and tours; the above will be fulfilled.

CARNIVAL SHORTS

Reverend Father L. Stanford S.J., well known to many students in the College is this year's Carnival Moderator.... Carol Jane Pachl, Canadian figure skating champion will do the choreography for the Ice Show and Paul Liber who is in charge of the event tells us that there will be several unusual and entertaining numbers. He is also looking for students who wish to participate in the event-skating ability is not necessarily a prerequisite..... Carnival suggestion boxes which are spotted throughout the College are for suggestions, not contributions (Not that the Carnival officials wouldn't appreciate a bit of financial boosting now and then! There will be a Skier's Mass early Friday morning, February 13 before the busses leave for the Laurentians, a fitting way to begin a day of rather dangerous sport Another innovation in the Carnival schedule will be an intramural broom-ball tournament early Saturday morning. This sport should offer some wild and woolly action And don't forget the ice-sculpture competition which will be judged the opening night of the Carnival. Last year there were numerous imaginative creations arising from the more artistically-minded elements of the student body, and no less an enthusiasm is expected this year.

"HAIL TO BLUE CHIP RADICAL"

The ever popular Commerce Society has launched its "n" teenth activity, and this time, we believe we have just the thing to enkindle the spirit of all Commerce men. Yes, the gavel was lowered for the first time at 8:30 AM Tuesday December 10 to officially open The Loyola College Investment Club.

A healthy pat on the back is due to Ed Siwiec '59 for his undivided interest in organizing the Club. For Ed, this meant more than one trip downtown to broker's offices, and to the Montreal Stock Exchange to gather pertinent information and methods to follow. "Of Course" modest Ed would say "we owe the thanks to Mr. Lawrence Bessner" (Moderator of the Society) who really showed us how". Yes, thanks Mr. Bessner.

Anyhow the Investment Club is in full swing, and all Commerce men are invited to come to the C.S.R. office between 8:30 and 10:00 any morning of the week to invest the \$10,000 allotted to them. At this point, may we ask for your cooperation in knowing what you want when you come and don't ask the perennial question "What looks good today?"

With Christmas vacation just around the corner, we caution all investors that the Investment Club will be closed during the duration of the holidays and any stocks purchased (and not sold) before December 20, will have to remain as an investment through the vacations. That is to say, you will have to take your chances.

In closing, with an eye to the future, the Club intends to have guest speakers after the holidays to guide you to making wiser investments and generally understanding the market and its operations better.

VIEWS FOR FRESHMAN COMMERCE

When I was asked to write this article, I inquired among my classmates what were their views of the freshman year, so far. Some answers cannot be printed but others were honest and therefore I will write some of them which I thought to be the best answers to my question.

It is in the opinion of all that freshman year so far has been very enjoyable and successful, socially. Scholastically the answer was more on the negative side and this was said to result from the immaturity of some fellows in whom high school aptitude still prevails.

We agreed that there is a lot of spirit among us, and that this so called spirit was used at the right time and at the wrong time. As an example of spirit used at the right time we might refer to the Commerce Banquet in which function half the attendance was composed of Freshman Commerce. For an example of spirit used at the wrong time I will leave it to your imagination.

In general we came to the conclusion that Freshman Commerce, so far is somewhat successful but it could be much better if some of the fellows in the "Ivory Tower" came down to "earth" and faced the facts. It is hoped that in the coming term some of us will reform and conform with College "life".

As a final word in the name of Freshman Commerce, I will take this opportunity to wish a Merry Christmas and a Happy New Year to Rev. Father Rector, Father Nelson, Father Graham, Mr. Buell, Mr. Tomscha, Mr. Gallant and to Father Johnston, who is convalescing at St. Mary's Hospital, a prompt recovery.
